MEMORANDUM FOR THE RECORD

Periodic Current Intelligence Briefing for SUBJECT: the House Minority Leader

25X1 Yesterday Office of Legislative Counsel, and I met for an hour with Congressman Rhodes for one of our periodic current intelligence update briefings.

I briefed the Congressman on the situation in the Horn of Africa; an unusual Soviet silo demolition; the possible modification of a Y-class submarine; the forthcoming Chinese nuclear test at Lop Nor; and the construction of a new Chinese missile test range in southwest China. We also discussed a wide range of world-wide political topics of interest to the Congressman including French elections; the situation in Rhodesia; French military activity in Africa; the forthcoming Turkish/Greek summit meeting; and the prospects for more open opposition activity in South Korea.
